//main interface (default with labels)

//newGroup window

The image shows a software window titled "NEWGROUP". Inside the window, there is a label "Group Name" followed by a long, empty, rounded rectangular text input field. Below the "Group Name" label, there is a small circle icon with a line pointing to it from a text box below the window. To the right of this icon is a vertical stack of three buttons: "Categorical", "Numerical", and "Time Table". The "Numerical" button is highlighted in blue, and a mouse cursor is pointing at it. The "Categorical" and "Time Table" buttons are white with black text.
